-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 19 March 2009.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Status of the Claims

Claims 1-25 are pending.

This is in response to the office action mailed on 02/23/09.

Response to Restriction

Applicant's election with traverse of Group I, claims 1-8 in the reply filed on 03/19/09 is acknowledged. The traversal is on the ground(s) that restriction is only proper if the claims of the restricted groups are independent or patentably distinct and there would be a serious burden placed on the Examiner if restriction is not required. This is indeed the reasons for the restriction because as previously stated in the office action, each of the diseases recited in the various groups are independent and distinct. Note the literature search for the treatment of myocardial infarction will not be the same as that of treating peripheral artery occlusive disease or arteriosclerosis. Thus, a serious burden is placed on the Examiner to consider the entire application as filed.

The requirement is still deemed proper and is therefore made FINAL.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Tsuruoka et al., U.S. Patent number 5,312,833.

Art Unit: 1624

Applicants claim a method for increasing platelets in a human by administering

compounds of formula (I) and its salt:

{ 1 }

definitions are as recited in claim 1. The said compounds and composition are therapeutic and improving agents which have an affinity for agonistic action on the thrombopoietin receptor for diseases against which the activation of the thrombopoietin receptor is affective.

Tsuruoka et al., disclose the use of compounds identical to the current compounds for

treating patients with cancer, i.e., thrombocytopenia

According to Dr. K. Pavithran, (reference attached) thrombocytopenia increases the risk of bleeding. Note that the primary site for the production of thrombopoietin is the liver. Thrombopoietin is synthesized when required as in erythropoiesis. It can therefore be inferred that the use of the compounds and composition of Tsuruoka et al., possesses the ability to increase platelets in humans because of the inherent properties of the compounds and composition.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
